Organisation Name:

### Comment text:

This will not improve democracy one iota, because elections will still be held under First Past the Post which is a dreadfully unrepresentative, regressive system under which a high proportion of votes don't affect the outcome, and a small proportion of votes are a deciding factor - ridiculous! In order to tackle the urgent and challenging issues now facing us, we must start to use a system of proportional representation asap so that everyone's vote makes a difference.
