### Comment text:

Over the last 25 years I've seen the map redrawn on occasions, and this has simply degraded some areas to their detriment and disadvantage: Notably, [REDACTED] used to be in Portswood ward (My address used to say 'Portswood') - until the 'professional' homeowners left for better / more affluent parts of the area or country, and so let their housing stock to impoverished tenants. Then it became 'Bevois Mount'. Now the Council wants to degrade the ward again, by extending the boundary line south towards historically and currently impoverished Newtown area. Please: just stop the manipulation, and simply improve the bottom line (i.e. these areas). The reputation of these once nice areas has totally gone downhill - and I think the Council knows it...
