Comment text:

I am a resident of Tanfield Lane currently in the Delapre and Rushmere ward. Rushmere Road, Tanfield Lane, Watersmeet, Chipsey Avenue, and all the roads south of the Billing Road and East of Cliftonville Road, have more association with and are more geographically related to Abington (and Phippsville) than Delapre or anything South/South West of the Bedford Road. Please consider placing this population in the Abington and Phippsville (and Rushmere) ward. I appreciate that this may not quite equal out the total number of residents in that ward, however, community placement and representation in the local geographic area should be of primary focus rather than basing only on numbers. I also believe that the Abington Park recreation area should also be represented by the Abington ward rather than the Riverside ward - seems a bit odd that Abington park is not in the Abington ward. Thanks for your consideration.
