

## Malvern Hills District Council

### Personal Details:

**Name:**

[REDACTED]

**E-mail:**

[REDACTED]

**Postcode:**

[REDACTED]

**Organisation Name:** Earls Croome Parish Council

### Comment text:

Earls Croome Parish Council object to the latest proposed boundary changes for the following reasons: 1. Earls Croome is a rural parish and as such its needs and issues are very different to a town the size of Upton. 2. We need a District Councillor who can understand the needs and issues of a rural community. 3. We need a District Councillor who won't be distracted from our needs due to what might be considered more important issues associated with Upton Town. 4. With the development pressures that government and local authorities are putting on the residents of south Worcestershire we need more councillors to protect their interests not less. 5. Earls Croome has an important historical and cultural history and the latest proposals if adopted could undermine this in the future. 6. Earls Croome needs to maintain its identity. Our council respectfully request these points are considered and amendments are made to your current proposals, if we are to be coupled, it must be with communities similar to ours. Please respond to the points and issues above to enable us to discuss with our members.
