Comment text:

Billingham Town Council proposes that it retains three Councillors per ward. The proposed changes take a Councillor from Billingham South, which is the largest ward, and move it to Billingham West which is the smallest ward meaning that Billingham South has 2 Councillors and Billingham West will have 4. Billingham South have a projected 2026 electorate of 5717 and Billingham West and Wolviston will have 4734. Wolviston will retain its existing Parish Council so the Billingham Town Council ward of Billingham West will have around 4000 electors as there are approximately 700 residents in Wolviston according to the last published census data. There is a mistake in the draft recommendation which reads Billingham Town Council should comprise of 14 Councillors, as at present, representing 5 ward, however, the Town Council has 15 Councillors at present and the new breakdown provided also adds up to 15. Also, Billingham Town Council supports the submission made by Stockton on Tees Borough Council.
