Comment text:

Birling Parish Council wish to maintain allegiance with likeminded parishes with common interests. These rural interests include schools, transport, traffic, crime, church, social activity, and village identity all of which have a different perspective from the rural point of view than for other residents that reside in towns. For example, the rural parishes jointly fund a transport group so that our concerns about traffic matters are co-ordinated and we can speak with a single voice on matters that concern villagers. It would be sensible to maintain 2 councillors representing our interests.
