Comment text:

Good evening I live in loose and from what i can see this would mean the removal of the local parish council and we would be grouped into a larger one. As towns and cities grow it is important to keep local feeling and identity however this will all be lost if grouped into a larger area. I am also concerned this will mean the selling off of green spaces to larger councils who dont care about local feelings and will result in a further loss of green space. This should not be allowed ro happen and maybe a combination with other non Maidstone councils such as Yalding and Farleigh instead
Kind regards [REDACTED]
