### Comment text:

This is a ridiculous proposal by MBC. Another in a long line designed to split the community so they can push housing agenda. I live 6+ miles away from Headcorn down a lethal road, (where recent road deaths have occurred), through a number of little villages. Or I live 300 yards away from Lenham High Street at the heart of the village, yet I will be represented (or failed to be represented!) by a Headcorn Borough Councillor who will not care one bit what happens to me and my neighbours. I honestly cannot believe that this suggestion could even get submitted let alone considered anything but a total joke and a disgraceful act of a desperate council leader who is on record as barring member from visiting the area. How would you see this proposal if you were to visit??
