### Comment text:

I would be very worried about the ward of Lenham and Harrietsham being split in half. We live in Platts Heath and very much feel part of the Lenham community, with our children attending Harriersham school. We are very happy with the current arrangements and who represents us. It works well as both villages are served by the same GP, KCC councillor, community wardens etc which would not be the case if split in half. During this period of uncertainty of the Heathlands development we feel its important to remain part of a united Lenham ward. We exclusively use the amenities in Lenham and have very little to do with Headcorn so would not feel like we would be represented if the wards were to change.
