I understand there is a proposal to split off part of Lenham Parish from the Lenham, Harrietsham and Hollingbourne ward and place it in an enlarged Headcorn ward. The area includes Lenham Heath, Sandway, Platts Heath and Liverton Hill - all places with long standing historical and current connections to Lenham. This proposal looks like it is treating the people living in those areas with disdain, if not contempt. It also looks like something out of the Putin playbook. Residents of Headcorn are less likely to protest about 5000 houses on farmland in Lenham Heath than the residents of Lenham who will be far more affected by loss of amenity and overwhelming pressure on local services. This is a disreputable proposal unworthy of an English Borough.
