Local Government Boundary Commission – Maidstone Consultation

I wish to express my concern over the suggestion from Maidstone Borough Council that Harrietsham and Lenham ward is significantly altered.

The suggestion includes enlarging the ward in one direction while cutting it off in another and this would completely alter the representation we have enjoyed for several years.

Lenham and Harrietsham ward is presently served by two elected Members at Maidstone Borough Council.

In my view this works out well in terms of community building as the two parishes, Lenham and Harrietsham, sit on the eastern boundary of Maidstone borough distinct from the other major settlements, such as Headcorn 6 miles to the south, and share much common infrastructure in terms of services, for example:

- Both have been designated in the 2017 Maidstone Local Plan as Rural Service Centres
- Both are in the same Kent County Council Member Division and are served by the same KCC councillor
- Both are covered by the same County Council Community Warden
- Both form part of the same Kent Police area and so are served by known and shared Police Community Support Officers
- Both are covered by Len Valley Practice, the part of the Ridge Primary Care Network, with the primary surgery at Groom Way Lenham and a secondary surgery at the Glebe Medical Centre in Harrietsham

Aside from these shared statutory services, which make continuity a strong facet of the distinct communities of both parishes, many of the organisations that run for both young and old, involve residents from both parishes. The football club, the cricket club, Young at Heart, community hub club, Dance club, Ballet School, Scouting and Guiding movement are but some of the examples of joint enterprises.

Additionally, the one secondary school serves both parishes and beyond, including pupils from Maidstone and Ashford.

The current elected members are completely integrated within the fabric of the ward they represent. When the COVID situation emerged they were there, organising local volunteers to deliver food and help people get their medication under lockdown. That is but one recent example of how they constantly strive to serve this part of the borough.

I support the suggestion made by Lenham Parish council that parts of North Downs Ward adjacent to and north of Lenham and Harrietsham villages, consisting of the settlements of Otterden, Wichling, Frinsted and Wormshill which are currently in North Downs Ward, could be incorporated into an enhanced Lenham and Harrietsham ward. These areas adjacent to both villages already associate themselves strongly with the two villages. This change would

further align the areas of the AONB from the North Downs into the enlarged ward footprint, providing additional enhancement for tourism and greater cohesion for the communities within them.

A further suggestion I have which has a historical basis is for Lenham Heath and Charing Heath to be joined together as a single ward under Ashford Borough Council. The Boundary should follow the old boundary for the Cale Hill Hundred and defined by the River Stour. Lenham Heath and Charing Heath share a Village Hall, Church and originally a school. The community are one and Lenham Heath was and still feels itself to be more closely aligned to Ashford than Maidstone. This has been shown in recent years by the sensitive way Ashford Borough Council has embraced new development in Charing Heath compared to the catastrophic proposals for a huge unsustainable new town in Lenham Heath.
