I'm told there is a proposal to move Platts Heath from the Harrietsham and Lenham Ward to Headcorn. This makes no sense whatsoever in terms of the local community, the local facilities and the local infrastructure! My wife and I NEVER visit Headcorn apart from to pass through en route to another destination whereas we visit Harrietsham and Lenham pretty much on a daily basis! We are MUCH more a member of the Harrietsham and Lenham community than Headcorn including having considerable family ties in Harrietsham. This is also the case for my friends and acquaintances in Platts Heath. In addition we use the community facilities in Harrietsham and Lenham including shops, library, doctor's surgery, dental surgery, community centre. We do not use the facilities in Headcorn! In addition we access the national roads system (A20/M20) exclusively through the Harrietsham and Lenham local road infrastructure.
