What facilities do people share, such as parks, leisure centres or schools and shopping areas? In the Littleover ward park facilities are relevant such as Millennium Wood, King George playing fields, Littleover school playing field. Shopping areas both Littleover village and Mickleover village around the area of Tesco, Birds, Post office etc. Leisure is an issue since schools were required to be fenced in and since the pandemic a number of facilities have reduced such as Littleover school gym. What issues do neighbouring communities face that they have in common, such as high numbers of visitors or heavy traffic? Heavy traffic on pastures hill because planning keeps allowing new businesses and residential housing. Such as a private dentist and now an Aldi. Such as highfields. Have there been new housing or commercial developments that have changed the focus of communities? Yes wildlife and green spaces has been affected by continually building residential property. Both at Highfields, Oak Grange And are there roads, rivers, railways or other features that people believe form strong boundaries between neighbourhoods? The canal path accessed via Findern is something that some Littleover residents could walk to. Cycle routes via paths near Heatherton and through Millennium Wood . Or via Sinfin onto Alvaston Park. Or up to Mickleover nature reserve and then down to Mackworth, Markeaton island. Which means cyclists by the nature of needing more distance cross into other boundaries.
