Comment text:

I am in favour of splitting the Mackworth ward along the A38, either into a new ward or merging with all or a part of Abbey ward. For various reasons, including geography, housing stock, traffic, demographic of the New Zealand area is rather different from Mackworth, and it often feels that New Zealand is not represented adequately or appropriately. For example, it is primarily Victorian Terraced housing with on street parking, as opposed to semi/detatched driveway properties as in Mackworth, so the concerns and challenges are very different, we also have very different traffic patterns, and are very much on a more "through traffic" rather than destination traffic if that is the correct terms?!? Again, this presents different challenges.
