Comment text:

I am writing in support of 3 councillors for the ward of Burham & Wouldham in Tonbridge & Malling. I am very aware of the exceptionally high workload that our 2 councillors have been working with due to the huge amount of the residential development in this particular area. The development has created a large number of matters/problems for the councillors to work on for the new population coming in. I understand that further extensive housing development is planned and councillors are needing to work on plans to prevent/reduce the problems that are arising for people and the infrastructure needed in this very rural area.
