I'm struggling to work out the changes you are planning and where my house will be? I am in Harper Green area and am happy with staying there. Some area seem very large even though they are getting more densely populated with new house building. I think the increase to 60 councillors is too large and too expensive. As someone said on FB it should be one Councillor per ward and each one should have meeting with locals regarding large plans which affect their ward or the whole town. No one I speak to knows anything about the huge changes to Deansgate or Crompton place shops. The town centre should have free parking to attract people into it and put traffic wardens in other areas where poor traffic parking is dangerous to locals.
