Organisation Name:

### Comment text:

I have lived all of my life in Westhoughton which was always a part of Lancashire on NOT the Bolton / Greater Manchester bastardisation. Please return Westhoughton and Horwich back to their rightful place back in Lancashire. We have had enough of being Bolton councils whore, raising funds to be squandered on the town Centre whilst the outlying wards suffer ruin and rot. The levels of corruption in the planning department alone beggars belief! The council has done nothing for the outlying areas which have suffered decades of decline. Money slips through council hands into the pockets of the well connected. You only have to look across the boarder into Chorley where the roads are clean and litter free to see how dowdy and disregarded Westhoughton has become. It's time for a real change we want to go back to Lancashire!
