As a resident of Astley Bridge, I would like to communicate my objection to the proposed changes to the ward. The proposals would split up an existing community that local residents have worked hard to create and foster. The Friends of Astley Bridge group and local Cllr's have in recent decades made a real impact on the area with community artwork and events that bring local people together. The Christmas lights switch on at Andrew Lane Park, Remembrance activities and work to put on events through the year for local children are heavily attended and engaged with by local residents, with everyone coming together. This includes participation and involvement by residents in the areas off Belmont Road and Eagley Bank. We have a real community and work well together and as a resident I do not want my community to be split up.
