I would like to join with other residents in opposing the proposals to divide the Astley Bridge ward and to create from parts of it a South Turton ward. For many years, local community groups such as the Friends of Astley Bridge and ward Cllr's have worked hard to create harmony in the area and to bring residents together. This has led to the holding of a large Christmas fete at Andrew Lane Park and other more local projects such as the creation of local artwork displays and the maintenance of local flower troughs. This makes residents feel part of the area and as a testament to that over a thousand people gather at Christmas. By removing the areas surrounding Whitehill Lane and Eagley Bank from the ward, these people would be removed from the community and we will lose a lot of the positives that these events bring about. Needless to say that due to their inclusion and the strong local identity in Astley Bridge, residents in these areas have no connection to the rest of the new South Turton ward and it would not be a natural fit.
