Comment text:

I am a resident of Astley Bridge and wish to make my views known regarding the proposed changes to the ward of Astley Bridge. Astley Bridge is a distinct area within Bolton and residents are proud to live in the area. We work well together with community groups and local ward Cllr's with events held locally throughout the year. Finally, the areas which you are proposing to move into the South Turton ward have no connection with the rest of the newly proposed ward. In addition to being effectively cut off from the new ward, the residents are already heavily invested in Astley Bridge. They do not have any natural connection with Dunscar and Edgerton, they shop and use facilities in Astley Bridge centred on Blackburn Road. For these reasons I do not support the division of our current ward, it would only damage our community and the residents moving into the new ward would not feel part of South Turton.
