Comment text:

I am totally opposed to the proposed boundary changes that have been proposed in regard to Astley Bridge and South Turton. As a resident of Astley Bridge, I feel that these proposals will divide a community that has existed and thrived for many years. The local residents, working with local Cllr's have created the Friends of Astley Bridge community group which hosts local events and brings people together. Several thousand residents from the ward usually attend the Christmas lights switch on at Andrew Lane park organised by the group and the other regular events during the year really bring people together. I do not wish to see the community which I belong to divided and would be grateful if these proposals could be reconsidered.
