### Comment text:

I wish to express my strong objection to the new boundary proposals that have been published for Bolton, and in particular the proposed changes to the Astley Bridge ward. I am a resident of Astley Bridge and do not believe that the current proposals reflect the local area, they instead split an existing community into two. The areas encompassing Templecombe Drive and Eagley Bank belong to the Sharples and Astley Bridge area. The residents in these areas are involved with community events organised by the Friends of Astley Bridge Community Group. This includes the Astley Bridge Christmas lights switch on Andrew Lane park, which under your proposals would now be outside the ward. There is also no natural connection between the areas that you propose moving into a South Turton ward and the rest of the South Turton ward. The areas around Templecombe Drive have no direct road access to the new ward they are being moved into, they should not be moved out of the Astley Bridge Ward.
