Comment text:

I wish to express my strong objection to the proposed Boundary Commission changes in Bolton and especially the changes to the Astley Bridge ward. These changes which remove large areas of the current ward and place them into a new South Turton ward will adversely affect my community in Astley Bridge. Over many years, we have come together as residents to maintain a local identity and to work collectively for the good of the area. Removing large parts of the community into another ward would in my opinion undo a lot of this good work. The Friends of Astley Bridge, working alongside our ward Cllrs put on a lot of events, the biggest being our Christmas lights switch on at Andrew Lane park which often has over a thousand residents in attendance. Removing residents from the ward that regularly help to organise these events and placing them in a new ward would not be fair. There is no connection between Templecombe or Eagley Bank with the other parts of South Turton and it would not work.
