### Comment text:

I am registering my objection to the proposed changes to wards in Bolton and especially the changes to Astley Bridge where I am a resident. There seem no sense or reason to the proposals that have been put forward. Astley Bridge is a very separate entity on the edge of 'Bolton' and has no links with the areas to the North which are included in the South Turton ward. If anything the areas that are being moved out of Astley Bridge have better local links to Smithills and the rest of South Turton have a more natural link to Bromley Cross and Harwood. I see no benefit to these changes which would divide a strong area and wish to express my objection to the proposals in the strongest possible terms.
