Comment text:

We wish to register our objection to the proposed changes to the Astley Bridge ward. We live on Chelwood Close, just off Templecombe Drive and would be directly affected by the proposed changes. Residents in this area have a strong connection to Astley Bridge, it is where we shop, send children to school and has a natural centre. Astley Bridge is a historic area that we are a part of and we have a good relationship with our ward Cllr's that work hard to bring residents together by hosting events at Andrew Lane Park. I do not believe that it would be natural to isolate the segment where we live and tie it to a ward on the opposite side of the valley and further out of town, with which we have no natural connection. Indeed the only way for residents on our estate to access the new ward would be either through Astley Bridge or by leaving Bolton and re-entering South Turton via the Blackburn Borough. [REDACTED]
