Comment text:

I wish to set out my objection to the proposals that have been put forward by the Boundary Commission which would see a number of changes to the Astley Bridge ward. Astley Bridge is an area with a strong community and I believe that these proposals will damage the area. Community groups and our local Cllr's have worked hard to bring residents from across the ward together, including residents in the areas that are being moved into the South Turton ward. Rather than dividing the historic area of Astley Bridge, we need to keep the good community spirit going that we already have.
