Comment text:

As residents of Astley Bridge we wish to register our strong objection to the proposals to split up the Astley Bridge ward. We reside within the ward, close to Eagley Bank and are bemused that the proposals have put forward moving this area into a new South Turton Ward. While this area was built for the workers of Eagley Mill, such links have long been broken and the road access across to the new ward was closed off many years ago. This means that there is no direct access to the rest of the new ward from this area. Local Cllr's and community groups have worked hard to bring the area together and have succeeded. The success can be seen in the strong turnout for community events held on Andrew Lane Park and it would be awful to see this work undone. [REDACTED]
