### Comment text:

I would like to add my name in objection to the [proposed changes which have been put forward to the Astley Bridge Ward in Bolton. I am very much opposed to these proposals as a resident of Astley Bridge myself, along with other residents, enjoy being involved in the community events organized by the Friends of Astley Bridge. The area is noted throughout the Borough for its community projects. The floral displays at the junction with Asda, the seasonally changing display on the corner of Andrew Lane and the regular family events which are hosted in the local parks, to name but a few. In addition to this Astley Bridge was the first area in Bolton to display poppies on the lamp posts as an act of Remembrance. These new proposals will split this thriving community and damage this spirit of belonging to a very long standing geographical area. I will not have any feeling of belonging to the proposed new ward of South Turton. Turton itself is far removed geographically from Astley Bridge.
