Comment text:

I wish to register my objection to the proposals in regards to the current ward of Astley Bridge and the newly proposed ward of South Turton. I have lived in the local area for over sixty years and until recently taught at a school in the current ward of Bromley Cross which will now form a part of South Turton. Turton and Astley Bridge are distinct and separate areas, with their own local schools, shops and other amenities. Residents do not pass between these areas for these purposes and so I do not think that it would be beneficial to partner areas of Astley Bridge with areas of Turton. There is no local link between the area. Instead residents of Turton have their own distinct groups such as Egerton Park Improvement Committee (EPIC) while Astley Bridge has Team Eagley Bank and the Friends of Astley Bridge. As someone with a good understanding of the local area I do not think that these proposals will work as they split a natural community (Astley Bridge) and create a new artificial one comprised of areas that do not naturally fit together.
