Comment text:

As residents of Astley Bridge, we would like to register our opposition to the proposals to split up the current Astley Bridge ward which I feel would be detrimental to residents and to our community. Astley Bridge is a historic village which the current area has been built up around, it has existed for hundreds of years and only agreed to join Bolton Council in 1897 on the basis that the area retained its identity. Residents from across the current ward have a real sense of belonging and take an active part in the local community with some fantastic groups such as the Friends of Astley Bridge and our local ward Cllr's. Many of our local community events organised by the Friends of Astley Bridge are held on Andrew Lane park and are well attended by residents from across Astley Bridge. Under the current proposals, the park and many local residents would be removed from Astley Bridge. This would tear the heart out of our community. There are no benefits locally to these proposals.
