Comment text:

We would like to join with other Astley Bridge residents in expressing our concern and disappointment at the proposals to divide our area. Astley Bridge is a unique area within Bolton, with a long history and proud heritage. Residents come together to show pride in the area with local artwork displays, Remembrance tributes and the community flower troughs which are organised by the Friends of Astley Bridge community group. In addition to the visible signs of community cohesion, there are also some very good events held within the ward each year. Our local Cllr's and community groups work hard to bring residents together and the vast turnout each year for the Christmas lights switch on at Andrew Lane Park is a testament to the work they do and the community spirit that exists. We do not believe that splitting up this area that works so well together and is more than just a ward would be beneficial. We feel that this needs to be re-looked at and new proposals brought forward that do not divide our community. [REDACTED]
