Comment text:

We would like to add our names in opposing the proposed changes that have been suggested for the Astley Bridge Ward in Bolton. This area has a long and proud history, having grown from the original village of Astley Bridge into the community we have today with many people getting involved in local organisations such as, the Friends of Astley Bridge. This community group do a lot of good community work in the area, including organising large flower and artwork displays and the Christmas lights switch on for the area on Andrew Lane. It would be wrong to push ahead with these proposals, which would be damage the great work that is done locally. We therefore wish to register our objection to the Commission's proposals that affect Astley Bridge. [REDACTED]
