I am writing to object to the proposals to change the boundaries in the Astley Bridge Ward , I was born in Astley Bridge attended High Lawn school and Sharples secondary , this is a very close community and I cannot understand why anyone would want to carve it up in this way . surely we are looking to keep communities together and by making some areas inaccessible this will cut them off from their local community . buy removing the popular and well used Andrew lane park you are taking out of the ward a space many hundreds of resident attend regularly at well organised community strengthening events. Why you would introduce a community from the Tonge Moor area is beyond me , Hall ith Wood residents use schools in the Tonge Moor , Harwood and Bromley cross area , their churches, Libraries , and shops are all in the Brieghtmet, Harwood and Bromley Cross area there is very little link no regular or meaningful public transport to Astley Bridge I totally oppose this proposal and hope that you abandon it forthwith
