Harper Green ward needs to have a revamp of boundaries. Part of this current ward should be with Great Lever in terms of their needs and community, very different to that of Harper Green area. Add an extra councillor to Great Lever ward and leave two councillors in place for Harper Green ward, that clearly works well with neighbouring Farnworth, to support the needs and identity of both areas. Longecauseway to Frederick Street should surely be within the Farnworth ward these areas all with similar needs and function. There are enough councillors to see these changes achieved to support all the different wards.
