**Comment text:**

Harper Green and Great lever are areas in two distinctly different towns. Harper Green is a part of Farnworth , is part of Farnworths history and identity. Great lever is similarly a part of Bolton and identifies with Bolton and not Farnworth. Farnworth has its own parks, schools, churches and has its own social important events such as Remembrance day when the dead of Farnworth are remembered. I would much prefer that Harper Green had 2 councillors and Great lever 4 if the part of Great Lever that is currently in Harper Green ward was transferred to form a larger Great Lever wad. In that way both distinctly different communities would be part of their historic and cultural communities
