I don't understand why you are splitting wards up, makes no sense what so ever. What are the cost implications when it works as it is, this can only be a political move and not a move for the people of Redditch. Save your/our money and leave we'll alone. I can understand a review when there is growth from the Bromsgrove border that comes into Redditch but otherwise there is no need to change it. I live in Batchley, I want to be part of it, not Central.
