Comment text:

I am not against new proposals as long as they reflect the areas of Redditch from the communities point of view and the interests of the people who live there. Ipsley has always been connected to Matchborough through distance and the centre, schools, nurseries and some of Ipsley (the lower area)is next to Matchborough. For this area to be split up is a mistake and will bring confusion when dealing with problems that may arise. Councillors will be dealing with things that will overlap the two boundaries. Ipsley should stay with Matchborough as a whole.
