### Comment text:

I recently moved to [REDACTED] which is within the area proposed to for resdegination from Scotforth West to Scotforth East, and I strongly object to the proposal to amend the boundary here. We have no direct route into the main part of ScotEast as the roads either side of our terrace are cul-de-sacs, and it makes far more sense to keep us all as part of ScotWest. We 'look' towards Greaves far more than Bowerham (literally in the case of the house where I live), the community facilities we relate to are all in ScotWest. I feel it is important that political boundaries should respect natural communities, and Roseback Terrace definitely feels part of the broader Greaves community.
