We are writing to put on record our support for the proposals made regarding the Oakwood Ward. In particular: That extending the boundary of Morley Road makes complete sense in that it simplifies what is currently in place. Most residents on Morley Road consider themselves part of, and are more likely to use the amenities in Oakwood given its proximity. In addition, we welcome the inclusion of the Dale Acre Way / Red Row Housing Estate in Oakwood. Purely geographically this is logical. All residents egressing the estate have to enter into Oakwood to access anywhere. We administer the largest social media community group in Oakwood and it is clearly evident that residents here very much consider themselves firmly integrated as part of the thriving Oakwood Community. The properties and residents on the estate share more that is similar to Oakwood Ward than their current placement in Derwent Ward. We support the proposal that Oakwood remain a three councillor ward given its recent expansion and the likelihood of further expansion in the near future to accommodate housing need. This current proposal is a great improvement on the previous suggestion whereby the ward was effectively split. This, from feedback on our local community social media, was a source of great upset to Oakwood residents. We strongly urge the adoption of this proposal.
