**Subject:** Proposed boundary alterations in Derby.

[REDACTED] [REDACTED]

30/07/2022

Dear Sir/Madam,

The proposed boundary alterations in Derby are wholly unnecessary and the only purpose is to gain political advantage.

The area proposal to establish Wilmorton, Crewton etc is old hat, these areas already exist but only in the memory of the older population, they have gradually been absorbed over the years within the gradual expansion of firstly Derby Borough and the City of Derby, they are in the main industrial/retail/service areas with few domestic residences that are already well served by the local councillors.

In addition if the boundary changes happen it will put undue and unwanted pressure upon the finances of the rate payers of Derby, (a conservative estimation would be £50,000), More councillors equal more expenses, these costs will be a burden on the rate payers and will only benefit those who TAKE out of the system, all this to gain a political advantage.

I call upon you to reject these proposals and to maintain the status quo.

Yours sincerely,

[REDACTED]
