### Comment text:

The decision to equalise the number of electors in each ward is correct & personally the decision to create a Roydon & Lower Nazeing ward is sound. Looking at the Parish of Roydon it is understandable to create an additional Ward in the Parish (Halls Green) as the number of electors in this Ward will significantly increase in the period from 2024 onwards with the development of West Katherines/Water Lane area. The number of Parish Councillors for the Halls Green Ward for an election in May is probably excessive, but as there will not be a further Boundary review for probably 15/20 years the recommendation is sound.
