Comment text:

I submitted comments to your previous consultation to include Harvington and Norton within the Redditch Ward objecting upon the grounds of such alignment purely on the basis of voter numbers. I make the same comment upon the proposal for these same two communities to be aligned to Droitwich Spa. All community issues and services are based around Evesham Town for problem solving by Councils and Emergency Services. Inappropriate alignment to Droitwich Spa will see issues drop between services and lack informed judgement by councillors. Just looking at the map clearly shows our communities are shared with Evesham. Let common sense prevail. As a previous Police Inspector at Evesham I do understand that alignment with Wychavon is critical but councillors need to understand their local communities and the two towns of Evesham AND Droitwich Spa are quite distinct.
