Comment text:

I want to object to the proposal to move the boundary for the ward of Shawforth in Whitworth to Burnley and irwell. Shawforth is a integral part of our village and has been for years. The village has two pre school nurseries with one of those being St John's and St Michael's. My children went to those nurseries and I hope my grand children will. Whitworth community choir uses Shawforth Chapel for rehearsals as there is no where else within the valley for them to rehearse. Every year the people of Whitworth take part in a charity walk of the boundaries of Whitworth which includes Shawforth . This walk would not be the same with out Shawforth. The majority of Shawforth people use othe local amenities including the local Gp, pharmacy shops and leisure centre other wise these facilities are miles away, which the older members of the community would struggle to access. The village has a beautiful river that flows through the valley with part of it a new cycle path and a new developed children's play ground which has disabled play equipment for wherl chair bound children. This was all sought and paid for by the Whitworth community fund rasing along with the Parish Town Council.
