

Stockton-on-Tees Borough Council

Personal Details:

I'm not happy at all with the new draft submission. The original draft proposal was far better as I really don't see how parts of Fairfield still remain in Grangefield. Surely the furthest Grangefield should go is to incorporate Bramley Green which is right next to Grangefield school. Whitton Rd and any feed off roads should be part of Fairfield which is how all who live in that area identify, no-one identifies the area as Grangefield. Knock on a few doors and ask them what area they live in, all will say Fairfield. Newtown and towards the cemetery should be incorporated into Grangefield. Look at the gap between Oxbridge Av and Whitton Rd, it's huge, where as Grangefield Rd, Newham Grange and Newtown meld into each other....The original submission of Newtown being incorporated into Grangefield is far more sensible, rather than lose the name Grangefield just call it Grangefield/Newtown ward. This really needs thinking about, the boundary for Grangefield natural route is to incorporate Newham Grange and Newtown, not Whitton Rd area which is quite a walk away. Whitton Rd and all the feed off roads need to come under Fairfield which is how everyone in that area recognises it.
