

**Stockton-on-Tees Borough Council**

I support the plan B proposal I have lived in Newham Grange all my life, I have been represented by Newtown ever since and share no identity and do not feel truly represented by Newtown Councillors/ward I believe I and my neighbours identify more as Grangefield as we use the same school, post office and community centre. House styles and prices are also more relatable to each other in Grangefield and Newham grange as semi-detached homes, compared to Newtown with more terrace properties. Having friends live in Fairfield also, they tell me they don't live/want to be classed as Grangefield, they see themselves only as Fairfield
