Thank you for the opportunity to comment on your draft recommendations. I am largely very happy with your proposals which I believe have taken into account the feedback you received. My only concern is that the Harrietsham, Lenham and North Downs ward is exceptionally large (geographically) and although I note your intention to increase the Councillor representation from 2 to 3 members, I wonder whether there is any potential in finding a practical divide within this ward at the north end. I think this would go a long way to maintaining the natural communities and therefore their relationship with Maidstone Borough Council. I recognise you have had an extremely tricky job trying to 'even' things out but hopefully this would just be a little 'tweaking' which would not disadvantage any specific community.
