### Comment text:

I believe I was the resident referred to in your draft proposal for Newton ward. I perhaps did not express my self clearly. I did not want to use the whole of Bishopton Road, a long and winding road, most of which is in Newton. What I proposed was putting the few roads between Grange Avenue and Bishopton Road, which used to be in Stockton Grange, back into Stockton Grange, rather than staying in Newtown with whom our estate has nothing in common and whose councillors we never see. I'm not sure your current proposal is any better as it's puts both Stockton Grange and Grangefield together with more economically disadvantaged areas of Stockton, and, I suspect, means that there will now be a lot more residents who never see their councillors.
