To Whom it May Concern,

I was deeply concerned to recently learn about the planned changes to my local ward (Grangefield, Stockton on Tees), where I live.

The proposal to abolish the ward of Grangefield should not go ahead for a number of reasons:

* Grangefield is an old part of Stockton and has many well established properties, shops, schools, a church and three sports clubs.

* As there are many community and public links in Grangefield, it should remain a ward with a single council member.

* Grangefield and Newtown (the ward that we would become if the proposal goes ahead) are unlike. Newtown is a very different community with continuous housing and really should join the town centre ward, along with Primrose hill as they share a church, bus links and shops.

I am sure that most Grangefield residents will be very opposed to this change as Grangefield is a thriving, respectable and desirable ward in its own right.

Please do not abolish Grangefield. I am a happy and proud resident of this ward and do not want to be a part of Newtown ward.

Regards,
