### Comment text:

Please do not destroy part of Stanley Park gold course. There is precious little green space left in Blackpool and this area is unsuitable for cabins and tourist attractions. To build go-karting right by the hospital is madness. Patients don't want to hear the noise of the go-karts, etc when they are ill in hospital. The traffic is bad enough around the hospital without trying to attract tourists. Ambulances and patients don't need more traffic. Wildlife will lose its place to live and golfers and locals including dog walkers will lose their space to exercise and relax. The Government have said that being close to nature and having access to greenspaces is important for mental and physical health. To replace mature trees, grassland and scrub with a tourist attraction and cabins and put a small wildlife area by the go-karting area is lunacy. Please leave it alone. Instead of thinking about the potential profit (which may not appear), for once think about what the locals want. They don't want an increase in traffic, more people, floodlights, noise from go-karts, etc. They want their valuable greenspace to be left alone. There are great crested newts, several bat and bird species plus mammals in the area, mature trees, wildflowers, scrub, grassland and shrubs which have matured over the years. Please don't destroy this mosaic of habitats. Spend the money regenerating the poorer areas of Blackpool for the locals. It can't all be about the tourists who visit here fleetingly, you need to look after the permanent residents
