Comment text:

Under the draft proposal the wards will reflect the true areas to their names. Finally you have separated Speke from Garston, they should never have been lumped together in the first place. Just one suggestion, instead of splitting Garston into North and South, just have one ward for Garston (you didn't split up Speke in this draft!). You can always have 2 councillors for Garston as I understand Speke will also have. Anyway, one united Garston Ward would then enable another ward for Grassendale and Cressington as both of those areas have always been referred to in the same breath for generations! To recap, one Speke, one Garston, one Grassendale and Cressington.
